

Распределение числа устройств по производителям

Возвращает распределение числа устройств по производителям.

- obj_id - уникальный идентификатор объекта на сервере Shopster,
- vendor - наименование производителя Wi-Fi адаптера устройства,
- count_client - количество посетителей с Wi-Fi адаптером данного производителя

URL

/reports/vendor

Method

GET

GET Params

- from=[date]
- to=[date]
- objects=[[int]

Headers

x-token=[string]

Response

```
